GO_MF | TA | A1_Rescue_vs_KO | up in KO | n = 2254
signaling receptor activity
molecular transducer activity
tubulin binding
signaling receptor regulator activity
transmembrane signaling receptor activity
signaling receptor activator activity
microtubule binding
receptor ligand activity
cell adhesion molecule binding
protein kinase regulator activity
glycosaminoglycan binding
integrin binding
growth factor binding
polypeptide conformation or assembly isomerase activity
cytoskeletal motor activity
cytokine binding
microtubule motor activity
cell adhesion mediator activity
neurotransmitter receptor regulator activity
acetylcholine receptor regulator activity
