GO_BP | TA | A1_Rescue_vs_WT | up in A1_Rescue | n = 1373
mitochondrial gene expression
mitochondrial translation
detoxification
oxidative phosphorylation
cellular oxidant detoxification
cellular detoxification
unsaturated fatty acid metabolic process
phospholipid transport
mitochondrial respiratory chain complex assembly
icosanoid metabolic process
xenobiotic metabolic process
ribosomal large subunit biogenesis
regulation of fatty acid biosynthetic process
xenobiotic catabolic process
plasma lipoprotein particle organization
intestinal absorption
intestinal lipid absorption
epoxygenase P450 pathway
regulation of intestinal lipid absorption
oxidative demethylation
