GO_BP | TA | A1_Rescue_vs_WT | up in WT | n = 1684
blood vessel morphogenesis
negative regulation of cell differentiation
cellular response to growth factor stimulus
leukocyte differentiation
positive regulation of locomotion
positive regulation of cell motility
positive regulation of cell migration
angiogenesis
ossification
positive regulation of MAPK cascade
phosphatidylinositol 3−kinase/protein kinase B signal transduction
regulation of cellular response to growth factor stimulus
learning or memory
regulation of vasculature development
regulation of phosphatidylinositol 3−kinase/protein kinase B signal transduction
ameboidal−type cell migration
regulation of angiogenesis
osteoblast differentiation
respiratory gaseous exchange by respiratory system
regulation of regulatory T cell differentiation
